

Mentorship Program

...

Wystan Concepcion

Core Value: Service

...

Project Description

- ARISE volunteers will tutor other Engineering UPD students in their respective Engineering/Major subjects.
- Vision - To be able to help fellow Engineering students excel in their academic studies
- Mission - To provide an avenue for the ARISE members to impart their knowledge and learnings to other students in UPD.
- Target Participants - UPD Engineering Students

How does it work?

1. Provide list of volunteers, and the subjects they're willing to teach and their free times.
2. Provide a sign-up sheet for the mentees to choose which mentor/subject/schedule they choose
3. The mentors will contact their assigned mentees individually to schedule a session and decide on a venue
4. The mentors will report every week to the project head regarding updates

Project Committee Structure

- Internals - Provide a list of volunteers and subjects that they are willing to teach, and their free times
- Publicity - In charge of making the publicity materials of the program, as well as publicizing the program via RTR, posters, etc.
- Secretariat - Provide a sign-up sheet for the mentees to choose which mentor/subject/schedule they choose

Logistics

Venue

- Thinking Space, Engglib 1 & 2, Main Lib

Date & Time

- Depends on the mentors, can be weekly or monthly

KPI

Participants

- 20

Passing Rate

- 80%

Thank you!
